

MIGUEL HENRIQUE LEMES DA SILVA

20 years old- Lins SP - (14) 99183-8944 – miquellemes005@gmail.com

GitHub: <https://github.com/migueelzz>

Software Developer Mid Level

QUALIFICATIONS

Frontend Development:

Solid experience building modern, responsive web interfaces using ReactJS, React Native, NextJS, TypeScript, HTML, CSS, and TailwindCSS. Skilled in creating layouts aligned with UI/UX best practices and accessibility standards.

Backend Development:

Proficient in Node.js and NestJS for building robust and scalable APIs. Familiar with relational databases (PostgreSQL, MySQL) and non-relational databases (MongoDB, Redis).

Development Methodologies and Standards:

Experience with agile methodologies (Scrum), application of SOLID principles, design patterns, and test-driven development (TDD). Worked on projects using CI/CD pipelines for automation.

Containers and Cloud Technologies:

Hands-on experience with Docker for application containerization and deployment solutions on AWS.

Mobile Development:

Skilled in cross-platform mobile app development using React Native, with a focus on performance and integration with external services.

System Integrations and Architecture Migration:

Involved in system migration projects toward modern architectures using design patterns such as SOLID and Clean Architecture.

Testing and Quality Assurance:

Proficient in automated testing and QA using Jest, ensuring application stability and high performance.

Design and Prototyping:

Collaborated with design teams using Figma, applying UI/UX concepts to deliver optimized interfaces and memorable user experiences.

PROFESSIONAL EXPERIENCE

Software Developer Mid Level – Prime Control (01/2025 – Present)

I currently work as part of the Innovation Team. I contribute to the development of scalable and modern web and mobile solutions using technologies like React, Typescript, Node.js, Python, FastAPI, MongoDB, Postgres, Docker and CI/CD, while collaborating closely with cross-functional teams in agile environments. My role also involves direct interaction with various AWS services to support deployment and integration needs.

Key Contributions and Achievements:

- *Delivered end-to-end solutions from UI implementation to API integration with external services.*
- *Helped shape and maintain architecture based on SOLID principles and Clean Architecture.*
- *Improved development workflow through CI/CD pipelines and containerized environments with Docker.*
- *Ensured high code quality and performance through automated testing (Jest).*
- *Participated in the design and rollout of accessible and responsive interfaces in partnership with design teams.*
- *Worked with AWS services such as EC2, S3, AWS Amplify, and API Gateway to deploy and scale applications effectively.*

Software Developer – INFINIFY (12/2024 – 01/2025)

As a full-time Software Developer, I continued making valuable contributions to the ChatSync project.

Key Contributions and Achievements:

- *Developed a management dashboard interface for ChatSync, enabling clients to register users, manage permissions, and monitor actions via dashboards.*
- *Created an interactive chat interface integrated with Jira, allowing the chatbot to identify problems, analyze them, and create dedicated support channels with suggested solutions.*
- *Maintained and enhanced ChatSync, an AI-powered chatbot integrated with platforms such as SAP, Salesforce, WhatsApp, Microsoft Teams, Slack, and more.*

Full Stack Developer (Trainee) – INFINIFY (03/2024 – 12/2024)

As a Trainee, I primarily focused on frontend development and AI-powered solutions. I contributed to the evolution of ChatSync, which was one of the key products that led to the acquisition by Prime Control.

Key Contributions and Achievements:

- *Built modern, interactive UIs using React and integrated APIs to support ChatSync functionalities.*
- *Contributed to AI-based features for automating tasks like purchase approvals, password resets, and user management.*
- *Developed reusable components and followed best practices such as SOLID principles and Clean Architecture.*
- *Implemented CI/CD pipelines and automated testing using Jest.*
- *Collaborated with designers via Figma to ensure responsive, accessible user experiences.*

IT Support Intern – City Hall of Lins (10/2023 – 03/2024)

During my internship at the City Hall of Lins, I provided technical support and contributed to the installation, configuration, and maintenance of hardware and software systems. I played a key role in troubleshooting and resolving computer and system issues, ensuring the efficient operation of IT infrastructure. Additionally, I assisted in identifying and resolving security and infrastructure problems to maintain system stability.

Key Contributions and Achievements:

- *Assisted with the installation, configuration, and maintenance of hardware and software systems.*
- *Provided timely and effective technical support to users, resolving computer and system issues.*
- *Contributed to infrastructure improvements and supported the identification and resolution of security vulnerabilities.*

Frontend Developer Intern – AD Soluções em Tecnologia (06/2022 – 05/2023)

Developed responsive web systems using UI/UX design principles.

Worked in agile teams (SCRUM/Kanban), participated in daily meetings, project reviews, and architectural migrations.

- *Contributed to the development of a photo booth application for a graduation/event company with direct integration to professional cameras. Technologies used: React, JavaScript, PHP, OOP, MySQL.*
- *Participated in modernizing legacy systems through architectural migrations and new tool adoption.*

EDUCATION

- **Technologist in Systems Analysis and Development** – FATEC Lins/SP – 2024
- **Technical Course in Systems Development** – ETEC Lins/SP – 2022

CERTIFICATIONS & COURSES

- Java Programming – Advanced, Fundação Bradesco – 06/2023
- JavaScript Course, Curso em Vídeo – 02/2024
- NLW Expert React Native Track, Rocketseat – 02/2024
- NodeJS Course, Rocketseat – 05/2024
- Figma Design Course, Rocketseat – 05/2024
- Mastering TailwindCSS, Rocketseat – 05/2024
- ReactJS Course, Rocketseat – 07/2024
- NLW Journey – ReactJS, Rocketseat – 07/2024
- NLW Journey – Java, Rocketseat – 07/2024
- Accessibility with React, Rocketseat – 09/2024
- Next.js App Router & Testing, Rocketseat – 09/2024
- Building SaaS with Next.js & RBAC, Rocketseat – 10/2024

- UX/UI with Figma, Rocketseat – 11/2024
- NLW Pocket – Mobile (React Native), Rocketseat – 12/2024

LANGUAGES

- English: Basic (reading comprehension, writing, and simple conversation)
